How can alumni make the most of CE opportunities?

Thanks for asking. Starting soon, the CVHS **Alumni Office** will focus on providing complimentary CE gatherings at regional meetings. Multiple objectives highlight CVHS specialties and key clinical advancements. If your region is interested in hosting a CE presentation in conjunction with a regularly scheduled meeting, please contact Alumni Affairs Specialist [Sharon Worrell](#) (sufficient lead-time is required to schedule availability of presenters and promote opportunities to alumni.) There might even be human sustenance because, hey, we are in the business of maintaining human existence.

Targeted CE includes (but is not limited to)...

- **Food Animal Service.** Delivering the highest possible standard of care for production animals.
- **Cardiology.** Compassionate care through medical and/or surgical options.
- **Internal Medicine.** Minimally invasive or non-invasive testing, endoscopy, advanced imaging.
- **Ophthalmology.** Patient-centered eye care for all species.
- **Surgery.** Oncologic, neurologic and soft tissue.
- **Reproductive Services.** Breeding management, reproductive health and performance through board-certified Theriogenologist specialty.
- **Avian, Exotic & Zoo Medicine.** Modern tech including CT and MRI advances specialties for extraordinary beasts.
- **Equine Medicine.** Serving horse owners since 1948 with board certified specialists, post-graduate veterinary residents, and senior veterinary students.
