Students (and recent grads), **OVMA** is building a framework for student engagement. Help for the overstimulated lifestyles of a veterinary student/all of us, is here.

Your state organization is listening. **What are your needs as students relevant to your well-being and life throughout veterinary school? What are the advantages to you from OVMA membership? Do you know your path to legislative advocacy? Where do I acquire practice insurance? How prepared are you**

to address the business aspects of Practice Management? **How can I balance my clinic and a family?**
Can I succeed as a rural veterinarian where there is a great need?

We want to hear from you. [Submit your feedback.](#)
