

CENTER FOR VETERINARY HEALTH SCIENCES Friday Bit for Alumni and Friends

OLD SCHOOL »

Emeriti faculty have tremendous experience and knowledge about the University. Retired faculty are those on whom the university has conferred the designation of professor, associate professor, associate research professor, research professor.... you get the idea. Our group meets regularly to engage with and contribute to the mission of CVHS. And yes, the BS gets deep. At CVHS, emeritus faculty are encouraged to continue playing an active role in their academic discipline and intellectual life of the university. To foster this continued role and on-going relationships with emeriti, your alumni office:

- Invites participation of emeriti faculty at CVHS events.
- Maintains contact for regular communications about programs and college life.
- Extends the privilege of access to information and limited resources.
- Recognizes emeritus faculty for their significant value and contributions of service.

These individuals offer incredible social and intellectual fellowship. Here's some professor emeritus-types preparing their next course of action.

Stand clear of the Panciera throwing arm, it is fully functional.
