

CENTER FOR VETERINARY HEALTH SCIENCES Friday Bit for Alumni and Friends

SHUTDOWN 2019? »

Negative, Space Cowboys. Here in the 405 training exercises are designed to test the character of cadets.

We don't subscribe to no-win scenarios. The addition of faculty and new administrators improves all platforms.

Redefining problems is what we do. Turbulence? It happens. New algorithms keep a constant eye on incoming hazards.

The Neutral Zone is somewhere we're unfamiliar with (we're fully engaged). Robust alumni and emeritus faculty squads are constantly on comms.

Simulations are non-reality. We rescue routinely for real. Well-rehearsed emergency response teams prove our outreach is not shuttered.

Klingons present in our clinic. We have a wild side.

Our devices are programmed to receive distress signals. Threats received 24/7 have access to professional services with alumni, clinicians, scientists and some mighty fine staff who advance our call sign "**Healthy Animals, Healthy People.**"
