

CENTER FOR VETERINARY HEALTH SCIENCES Friday Bit for Alumni and Friends

ONCE UPON A DREAM »

What's in your dreams? If **orange** is not a recurring theme, we need to talk.

Disney had a pretty good handle on the promotion of what happens "when you're fast asleep". Here in the alumni office I think of dreaming in the metaphorical sense of desires (and wishes) that can come true. "A wish is a dream your heart makes...." [Al Hoffman, Jerry Livingston, Mack David - Cinderella.]

Cinderella encourages her animal friends to never stop dreaming, and that, my orange dreamers, is truly what we are about at CVHS. Our wishes happen while we're cognizant. Sustaining life, offering compassion, clinical expertise, research, and concerns for the One Health initiative, reduced veterinary education debt, rural veterinary practice incentives, compounding and feed directive outcomes, student instruction space.... Our dream-catchers filter everything for the good of humanity.

This is **live-action** dreaming. So, let's not *just* wish about it.

"When You Wish Upon A Star" makes a promise. The promise that something *is happening* "**Once Upon A Cowboy Dream**".

- CVHS is admitting more students
- We need facility space, a building, for student instruction
- The name on this building is a tribute to a monument in himself
- The time is now to advance CVHS and honor this impactful pathologist, not posthumously
- Make this project a reality **GO** to put dreams into **action**.
