

## CENTER FOR VETERINARY HEALTH SCIENCES **Friday Bit for Alumni and Friends**

### **IMPACT FACT »**

#### **Mission possible.**

Faculty and staff participated in Round #1 of mission/action planning. Imagine 100-plus engaged doctors and support staff advocating for what CVHS is going to do and why it's going to do it. We proclaimed our dreams interpreted as crucial to the success of program initiatives.

#### **How will things look if the issues important to us are perfectly addressed?**

The facilitators are working to articulate the data in future sessions. Generally, the characteristics in common look something like the ideal clinic visit.

"That's our new mission statement."

#### **Shared and understood values.**

#### **Diversified perspectives.**

#### **Encouraged and partnered efforts.**

#### **Communication (that was big).**

A mission is a concrete picture. We learned that our vision is "action-oriented". There's no limit of inspired investment among participants so we look forward to aligning an organizational focus as we move forward with common purpose. As caring professionals we embrace ownership of services we provide.

#### **What you can do.**

- **Give hope for a stronger future by engaging with legislators on the importance of veterinary education in the state.**
- **Inspire students from rural communities to realize their dream of becoming a veterinarian.**
- **Enhance the image of your Alma mater as being competent and professional.**
- **Reassure funding source choices to advance production and livestock market veterinary services.**

#### **Is CVHS the ultimate provider in veterinary service and education?**

Evidence suggests our alumni put. the. hammer. down.
