

FRIDAY BIT - 1 November

» HOLES »

Some of the most fascinating (and strangest) objects in space, black holes are extremely dense, with strong gravitational pull. The correlation didn't escape me in contemplating **Fall Conference** event schedules and **Space Cowboy** alumni recognitions!

Akin to the CVM, black holes have been around a loong time. Since Einstein's general theory of relativity, technology has aided astronomers in identifying three types of black holes: stellar, supermassive and intermediate. Options!

So, pondering application of black-hole-science to the veterinary profession, let's have some Friday fun.

Stellar black holes - small but deadly

- When a star veterinarian burns through the last of his or her fuel, goes neutron, may collapse and compress, find a crazy amount of gravitational pull at [Patient Referral](#) to keep your astrophysical star-powered momentum and wellness.

Supermassive black holes - the birth of giants

- While small black holes populate the universe, their cousins, supermassive black holes, dominate. Enter [Milo](#) and his super-nova, **Dr. Erik Clary**.

Intermediate black holes - epic in potential

- Stars collide here at the CVM. Not only do celestial bodies exist at [large](#) and [small animal services](#), [research labs](#) explore and study galaxy-sized science. And where all those sharps go to finally rest.

Gravity (and the science of learning) is constant across the event horizon at the CVM. Rocket license? Keep it current by registering for **Fall Conference**. [Registration](#) closes tonight at midnight.

EVENT HORIZON

Fall Conference, November 14-15. Apart from CE opportunities, **class reunions** are celebrated for grad years ending in '4' & '9'! (No need to register for the full conference to attend alumni events only, however, you must register and purchase event tickets at the CVM website.

Corral Crawl celebrates alumni reunions at the lovely **ConocoPhillips Alumni Center, November 14, 6:30 p.m.** Examine how alumni navigate their super-powered careers centered on professionalism, fair play, loyalty, respect and a wee bit of spaced-out fun. A hearty buffet meal catered by Rancher's Club will enchant us and a cash bar features local craft beer and personally selected California/Oregon wines.

The Distinguished Alumni Luncheon is Friday, November 15, 11:30 a.m., room 101 West Watkins Center. Honorees for 2019 are the stellar **Drs. John Myers ('71), Ronald Tyler, Sr. ('77) and Paul Welch, ('81).**

Advance tickets are required for alumni events. Hotel accommodations are available for alumni at **Home2 Suites by Hilton Stillwater, 308 E. Hall of Fame Avenue, 74075, 405-372-2550 - Group Code: AFC.** Rates for Nov. 12-14 are \$94, Nov. 15, \$239. **Deadline for reservations in November 4.**

MORE ON FOR ALUMNI

Visit the [alumni pages](#) at the outstanding CVM website for all the star power!

What the actual **F R I D A Y**?

You cannot hide. Tell us you're not in Middle Earth.

(Oh look, that wee GIVE button? You know what to do!)

ALUMNI MEMBERSHIP

GIVE TO VET MED

*OSU College of Veterinary Medicine
308 McElroy Hall
Stillwater, OK 74078*
