## Bovine Palpation Team Results

The team consisted of 3rd year students: (pictured from left to right) **Abraham Aviles, Tanner Leon, Suzanna Curts, Brooke Bennett, and Megan Stuart.**

Congratulations to the Bovine Palpation Team who recently competed at the national competition held at SAVMA Symposium hosted by the University of Georgia, March 9th-11th. The team made it through the 3-day competition, consisting of a theory based written test, lab practicum, and palpation, placing 5th overall out of 13 teams. A **big thank you** goes out to all the **CVHS alumni, clinicians, faculty and staff** who helped prepare the team and donate towards their travel to make this trip possible.

## Preconceived Ideas - About the Job

**Class of 2019**, (and other new grads), clients deal with some assumptions about what life is like in the profession.

Here's a playbook of what you might encounter straight out of the halls of McElroy - just for giggles.

**Client: "Thank you, nurse, you've been helpful."**

**You: "Yes, actually, I'm your doctor."**

**Client: "When do I see the doctor?"**

**You: "You did see a doctor, it was me!"**

**Client: "May I speak to the doctor in charge?"**

**You: "You are speaking to her now."**

So, while this may be a less romantic scenario than you anticipated, remember that greatness isn't always encountered in expected ways.

Dwayne Johnson says, "Success isn't always about greatness. It's about consistency. Consistent hard work leads to success. Greatness will come."
