Blast from the Past - 1969

Midnight Cowboy? Aquarius? Butch Cassidy & the Sundance Kid? Sound familiar? Thought not.

On **May 10**, though, the **Class of 1969** will reminisce about their summers of love or at least flash-back to, shall we say, nostalgic moments in the DVM curriculum of the day. Fourteen members of the class of 40 will celebrate their **50th class reunion** along with the **Class of 2019!**

Want to find out what '69 class members might have in common with political activists of the era? I'm not telling but some special presentations will be made.

And, while we didn't have the film technology to convincingly fake a moon landing in 1969, we actually did have the tech to land on the moon! That said, and this is far less heroic and epically sad, **there. were. no. mobile. phones.** Full stop.

Can't make it to the Payne County Line for commencement? Live stream the event or watch it at your convenience by visiting the [OStateTVwebsite](#) or download the OStateTV app for iOS or Android.

(Pictured above is the **Class of 1969** in their 'um, glory days.) Is there a doctor in the house?
