

Net Vet Weekly - March 30, 2020

COVID-19 Update

As you may know, the College of Veterinary Medicine has gone online for the DVM curriculum. All four years of students will complete the remainder of the spring semester online.

In addition, the Veterinary Medical Hospital is only seeing emergency cases. Client pre-screening and admission/discharge procedures are posted.

Our clinicians remain available for phone consultations with primary veterinarians. Please call (405) 744-7000 for assistance.

The Oklahoma Animal Disease Diagnostic Lab will remain open.

All of this information can be viewed in detail on the College of Veterinary Medicine website at [COVID-19 Updates](#).

Veterinary/Client Resources

To help our referring DVMs and alumni, our team has compiled several documents of COVID-19 protocols. We hope you and your practice find this information helpful.

To view and download these documents, please visit [Veterinary Client Resources](#).

Virtual CE for You

The college's continuing education team is expediting efforts to create virtual delivery of content to meet CE requirements for Oklahoma license renewals. The following are in development:

- **COVID-19:** Webinars/virtual meetings to assist the veterinary community with questions, challenges and information.
- **Oklahoma DEA Registrants 1-hour CE requirement on Opioid/Pain Management:** Ongoing online course with an Oklahoma Bureau of Narcotics and Dangerous Drugs instructor with Oklahoma specific information, which is supported by the Oklahoma State Board of Veterinary Medical Examiners.
- **OVMA/OSU CVM Summer Seminar:** Content will be delivered in-person, completely virtual, or a combination of both, which will offer a minimum of 8 CE hours.

Comment on COVID-19 Case

Narasaraju Teluguakula, BSc, MSc, Ph.D., a researcher in the Department of Physiological Sciences, commented on a paper entitled, "Histopathologic Changes and SARS - CoV-2 Immunostaining in the Lung of a Patient with COVID-19" published in the Annals of Internal Medicine. You can read his comment by visiting

[Patient with COVID-19](#) and clicking on the "Comments" section.
