

## Collaborating to Decrease Horse Mortality Rates

Thank you, Fort Worth/Tarrant County Animal Health Foundation, for partially funding a collaborative research project at the veterinary center! Recently **Dr. John Minnerly** personally presented a check to the veterinary center's research team.

Pictured (left to right) are: **Drs. Daniel Burba** and **Kip Lemke**, **Mr. John Minnerly**, and **Drs. Megan Williams** and **Jerry Malayer**. The project will study potential causes of injury and death in horses associated with routine surgeries. See the full story at [Decreasing Horse Mortality Rates](#).

## Class of 1968 Celebrates 50<sup>th</sup> Reunion

The **Class of 1968** recently returned to Stillwater to celebrate their 50<sup>th</sup> Reunion. Hosted by **Sharon Worrell**, alumni affairs and event specialist, 28 classmates and their guests enjoyed three days of activities. Hear from several class members and read more about the event at [Class of 1968 Celebrates 50 Years](#).

## #AskTheExpert Features Dr. DeMars

**Dr. Paul DeMars** will be joining the main campus communications team for an #AskTheExpert Facebook live broadcast on Thursday, May 24. DeMars will be talking about tick control for pets starting at about 10:15 a.m. Tune in at <https://www.facebook.com/okstate/> for some great pet advice.

## Editor's Note

The next issue of *Net Vet Weekly* will be published on Tuesday, May 29, 2018.

**Have a Safe and Happy Memorial Day Weekend!**
