Vet Med Faces of Research: Dr. Michael Davis

This month's Vet Med Faces of Research segment features Dr. Michael Davis. Funded by a Grayson-Jockey Club grant, Dr. Davis is making exciting strides in a landmark study focused on a better understanding of the horse's skeletal muscle function. Read the full story and watch a short video at Vet Med Faces of Research: Dr. Michael Davis.

Gulf War Veterans' Illnesses

The Research Advisory Committee on Gulf War Veterans' Illnesses is hosting an online meeting on Wednesday, Aug. 4, from 10 a.m. to 3 p.m. CT. The public is invited to watch and listen. Time will be reserved for public comment.

Dr. Carey Pope serves on the committee which provides advice and makes recommendations to the Secretary of Veterans Affairs on proposed research studies, plans and strategies related to understanding and treating the health consequences of military service during the 1990-1991 Gulf War. To join the meeting, visit Gulf War Veterans' Illnesses Meeting.
Brittnee Sayler, DVM, is an equine medicine and surgery intern. She grew up on a ranch in Butte, Montana, and earned her DVM degree from St. George's University. She completed her clinical year at Louisiana State University. Dr. Sayler's research interests include angular limb deformities.

In her spare time, Brittnee enjoys baking, specifically cakes. She also likes to go horseback riding, running, and hiking.

Favorite Quote: "You learn more from failure than from success. Don't let it stop you. Failure builds character."

Taylor Strickland, DVM, is a food animal medicine and surgery intern. Originally from Bainbridge, Georgia, she earned her DVM degree from the University of Georgia. Dr. Strickland's research interests include bovine respiratory disease.

Taylor has shown beef cattle and swine for most of her life. She was a member of the UGA Collegiate Dairy Show Team for two years. In her spare time, she enjoys drawing and traveling with her dog, Shepherd.
