

Net Vet Weekly - August 24, 2020

COVID-19 News

The Veterinary Medical Hospital is now accepting appointments for non-emergency cases. Curbside admission and discharge protocols, social distancing and proper PPE remain in place.

Online CE is available. For a list of all courses available, the cost, and where to register visit [Online Professional Development](#).

All COVID-19 related information can be viewed in detail on the College of Veterinary Medicine website at [COVID-19 Updates](#).

Welcome Class of 2024!

We are excited to welcome the class of 2024 to OSU's College of Veterinary Medicine! Read more about them and meet two members of the class at [Welcome Vet Med Class of 2024](#).

We are also excited to be using the **Roger J. Panciera Education Center** for the first time. Years one through three each have a state-of-the-art classroom to continue their journey toward an OSU DVM degree.

House Officer Seminar

There is no seminar scheduled on Aug. 27.

Rural Vet Practice and Beef Sustainability Webinar

The first free webinar in the Rural Veterinary Practice and Beef Sustainability Series airs Thursday, Aug. 27, on Zoom from 6 p.m. to 7 p.m.

Dr. Christine Navarre, professor and extension veterinarian at Louisiana State University, will present "Impact of Recruitment and Retention of Food Animal Veterinarians on the U.S. Food Supply."

To register in advance and receive the link, visit [Rural Vet Practice and Beef Webinar](#).

Fall Conference

With the ongoing pandemic, Fall Conference will be virtual. Participate from the comfort of your home or office on Wednesday - Friday, Nov. 4 - 6, 2020. Registration will open Sept.

Summer Research Training Program

Even with the COVID-19 pandemic, 11 veterinary students were able to participate in the Summer Research Training Program.

Lectures were held via Zoom and lab times were coordinated for proper social distancing.

Special thanks to this year's faculty mentors and program sponsors.

Read about the participants, their projects and more at [Summer Research Training Program](#).

First Aid for Horses

At some point, horse owners will likely face a horse emergency or injury involving wounds and eye problems. It may be hard to tell if it's a life-threatening situation, but an equine first-aid kit is key to providing ample first aid.

Read more on what you need and what to look for from **Dr. Daniel Burba**, professor of equine surgery and head of Veterinary Clinical Sciences, in [First Aid for Horses](#).

5 Orphan Barn Owls Set Free

The Zoological Medicine team recently set five orphaned barn owls free after rehabilitating the owls for weeks. Watch the owls take flight at [Setting 5 Barn Owls Free](#).

1. Read more at [Fall Conference 2020](#).

Getting to Know You

Scott Mitchell, DVM, is an anatomic pathology resident. Originally from Haymarket, Virginia, he earned his DVM degree from Virginia-Maryland College of Veterinary Medicine.

When Scott's dog needed one of her legs amputated, he convinced the surgeon to send the leg to an anatomy prep lab. The bones now sit on his bookshelf at home. In his spare time, Scott enjoys woodworking and watching movies.
